

Confusion matrix for amazon

The figure is a 15x15 heatmap representing the relationship between True labels (y-axis) and Predicted labels (x-axis). The color scale ranges from 0.0 (dark blue) to 1.0 (dark red). The diagonal is white, indicating perfect predictions. The heatmap shows various clusters of high values (red/orange) and low values (blue/cyan) across the 15x15 grid.
